Continuation of Substance of Interview including description of the general nature of what was discussed: Claim 1 was discussed because of an error in the language of the claim which is overcome by a simple rearrangement of the new limitation of the claim. Claims 18 and 27 was discussed because the original claims would not be considered allowable like the independent claim 1, an agreement was reached such that claims 18 and 27 would receive subject matter similar to claim 1 in regards to the signals propagating through a multiplexer in addition to the other claim limitations which would make them allowable over the prior art.
